Weather Key Points

Regional Operations Center

Western Region

Wednesday, September 7

- Dangerous and record-setting heat will persist for much of the state through Friday with cooler conditions returning for the weekend
 - Widespread high to very high heat risk impacts will occur in many areas, with daytime temperatures reaching the 80s and 90s near the coast and 100 to 115°F inland. Overnight lows will remain very warm in the 70s and 80s, and even near 90°F across the Imperial Valley and some of the central foothills.
- Fire weather conditions remain highly elevated to locally critical for many areas through Friday, particularly in and around the mountains and foothills
 - Areas of more widespread critical fire weather conditions are expected across the Modoc Plateau and the Klamath Mountains through Wednesday as stronger winds occur
 - Gusty offshore winds on Thursday and Friday across southern California will bring increased fire weather concerns
- Isolated showers and thunderstorms remain possible across the mountains and foothills
 - Widespread rainfall is not expected, but any storms could produce locally heavy rainfall and gusty winds
 - Thunderstorms across central and northern California mountains will be mostly dry, with lightning and gusty winds
- The remnants of Hurricane Kay will approach southern portions of the state Friday and into the weekend
 - While the exact details remain somewhat uncertain, the primary concerns with this storm will be gusty winds (strongest across the higher terrain) and heavy rainfall with the potential for some flooding

Hurricane Kay Forecast

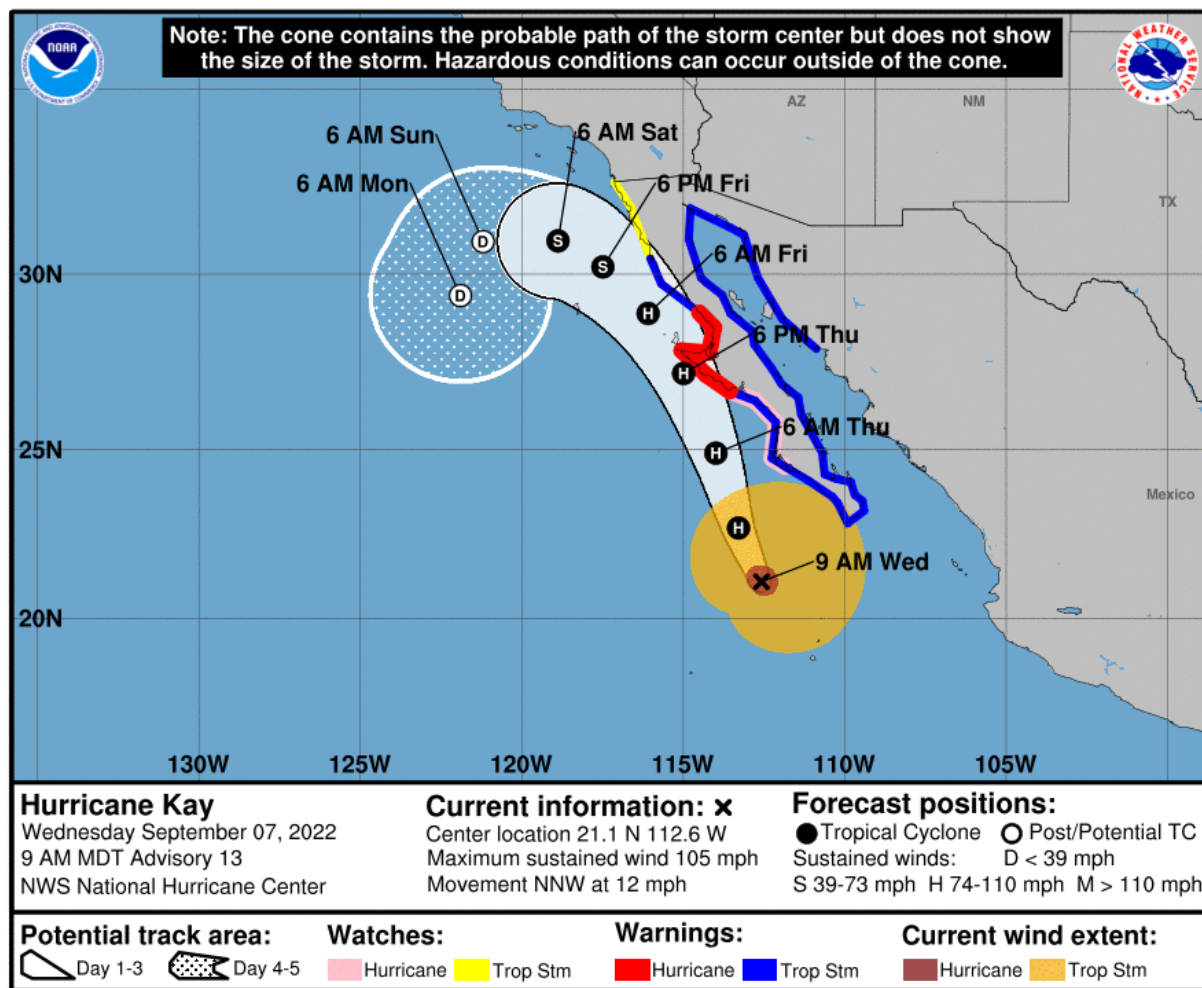

Regional Operations Center

Western Region

Wednesday, September 7

Key Points

- Hurricane Kay is forecast to track along or near the western coast of the Baja while also weakening back to a Tropical Storm late in the week
- The track of this tropical system increasingly looks to bring some impacts to portions of mainly southern California Friday and through the weekend
- Primary concerns at this time are gusty winds across the southern California higher terrain and increased thunderstorm chances with the potential for heavy rain and some flooding

2022 May Monkeypox Virus

On 08/01/22, the Governor proclaimed a State of Emergency to support the State's response to Monkeypox. A copy of the proclamation can be found [here](#).

The California Department of Public Health (CDPH) has activated the Medical and Health Coordination Center (MHCC) at Level 3 (low) in response to the 2022 May Monkeypox Virus event on 05/24/22; and increased the activation to Level 2 on 07/18/22.

- Hours of Operation: Monday to Friday, 0800 hours to 1700 hours until further notice.

2022 September Heat Wave

On 08/31/2022 California moved into Phase II of the Extreme Temperature Response Plan due to the upcoming 2022 September Heat Wave.

- Phase II actions are taken because of credible predictions by the NWS of excessive heat, cold, or of power disruptions during abnormal weather conditions. During this phase, contact with local agencies and coordination among state agencies increases.
 - Extreme Temperature Response Plan link [here](#).
- Governor Gavin Newsom has proclaimed a State of Emergency to temporarily increase energy production and reduce demand. Link to the proclamation can be found [here](#).
- Please see the attached Situation Summary for information regarding the 2022 September Heat Wave.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.
